

TORNADO E-BATT is the most eco-friendly version with a low noise level, making it suitable for indoor use and cordless.

PROFILES

LENGTH (m)	WEIGHT (Kg)
1.5	4.6
2	6.2
2.5	7.8
3	9.3
4	12.5

OPTIONS

- Extra Battery for Tornado E-BATT
- Anti-Vibration VAS grips

- High strength aluminium profile.
- Their profiles are interchangeable with other vibrating screeds.
- Anti-corrosion treatment on the profile edges.
- The 200mm profile is designed to provide good buoyancy.

BATTERY

TENSION (V)	NOMINAL CAPACITY (Ah)	AUTONOMY Duration	CHARGING TIME
24	14.5	✓ MORE than 2h.	± 3 h.

TORNADO EBATT

BATTERY-POWERED VIBRATING SCREED

+ Safe and reliable

The safety voltage of 24V ensures user safety. The lack of cables also eliminates the risk of electric shock.

+ Light and handling

Its folding handle makes it easy to carry and doesn't require any additional tools.

+ "Eco-Friendly"

TORNADO E-BATT has a much lower environmental impact thanks to its battery-powered electric motor.

+ Zero maintenance

The brushless motor is maintenance free and has no waste-generating parts.

- It maintains the robustness, manageability and ergonomics that define the entire ENAR TORNADO series.
- Due to its battery-powered design, it is highly sustainable and has a low environmental impact.
- With its low noise level, it is ideal for environments with noise restrictions, such as city centers.
